Program admissions policy re: students entering with credit for prior graduate work:

https://www.ucdenver.edu/docs/librariesprovider138/denver-anschutz-graduate-school/resources/graduate-school-policies-and-procedures.pdf?sfvrsn=d00622b9_2 (pg. 19). The PsyD Program operates on a cohort model so transfer credits typically do not affect time to completion.

*Students who matriculated from the Educational Specialist Program

Upon admission, students are matched with a program advisor and a student mentor to provide support. Faculty work very hard to support students and guide them toward successful completion of their degrees. Since the program was approved by the CU Regents in 2013, our attrition rate has been 5.5% (6 out of 110 students).

Licensure

Outcome	2010-2020
The total number of program graduates (doctoral degrees conferred on transcript) between 2 and 10 years ago (<i>our first cohort graduated in 2016</i>)	53
The number of these graduates (between 2 and 10 years ago) who became licensed psychologists in the past 10 years	4
Licensure percentage	7.5%

Many of our recent graduates are licensure candidates and are not yet eligible for licensure. In addition to licensure as a psychologist, our graduates are also eligible to be credentialed as School Psychologists with the state Department of Education. This licensure/certification has been obtained by all but four of our graduates (96%). The students who have not obtained the school psychologist credential completed a post-doctoral fellowship and are either pursuing licensure or have obtained licensure.
