Undergraduate Secondary Teacher Education, CLAS/SEHD Partnership

So you want to become a middle school or high school teacher - wonderful! Please read this handout for more information.

**How it Works:**

To become a middle school or high school teacher, you will need to be proficient in your content area, and with the College of Liberal Arts and Sciences (CLAS) / School of Education (SEHD) partnership you complete the requirements for a bachelor’s degree in your content area plus the requirements for teacher licensure. Through the partnership, the following content area bachelor’s degrees are offered, and teacher licensure requirements are offered through the SEHD. This means that with this pathway you will be a student in both CLAS and the SEHD.

### Colorado Teaching License

<td>BA in History Secondary or BA in Political Science Secondary</td>
</tr>
<tr>
<td>World Languages (grades K-12)</td>
<td>BA in Spanish or BA in French</td>
</tr>
</tbody>
</table>

The School of Education offers English Language Arts and Social Studies Secondary degrees as well (and Math, Middle School Math, and Science). Talk to the SEHD advisor to see which pathway would be best for you, the CLAS/SEHD or just the SEHD.

**Advising:**

Because you will be a student in both CLAS and the SEHD, you will be advised by CLAS and the SEHD. Additionally, CLAS has a shared advising structure in which you will be advised by a professional advisor and a faculty member (major advisor). This means you will have three advisors: a CLAS advisor, a major advisor, and the SEHD advisor.

The PY is two consecutive semesters (either Fall-Spring or Spring-Fall) of progressive internships, during which you will be placed at one of the SEHD’s partner schools to live the life of a teacher.

The Professional Year requires a separate application and admission process.

Professional Year Application Deadlines:

You will be required to pass the appropriate Praxis exam before the second semester of the Professional Year. It is recommended you take the Praxis early!!

If completing the teacher licensure requirements will require you to significantly exceed 120 total credits, then consider the Master of Arts in Teaching (MAT) Licensure program. You can do the Education Studies minor, pathway 1, as part of your current undergraduate degree, and count 3 of those courses towards the MAT program requirements. Ask the SEHD Advisor for more information or email the SEHD Office of Recruitment & Outreach, education@ucdenver.edu.
